## Kaps Illuminated Reticles

*For over 50 years, our motto has been: By hunters for hunters! For this very reason, we manufacture rifle scopes of the highest class. Thousands of satisfied hunters worldwide profit from our many years of experience in the construction of rifle scopes. Our new illuminated reticles are optimal for unfavourable lighting conditions and are put to the test every day by passionate hunters.*

*All adjustments are made with the user-friendly knurled ring.*

### **Brightness Setting**

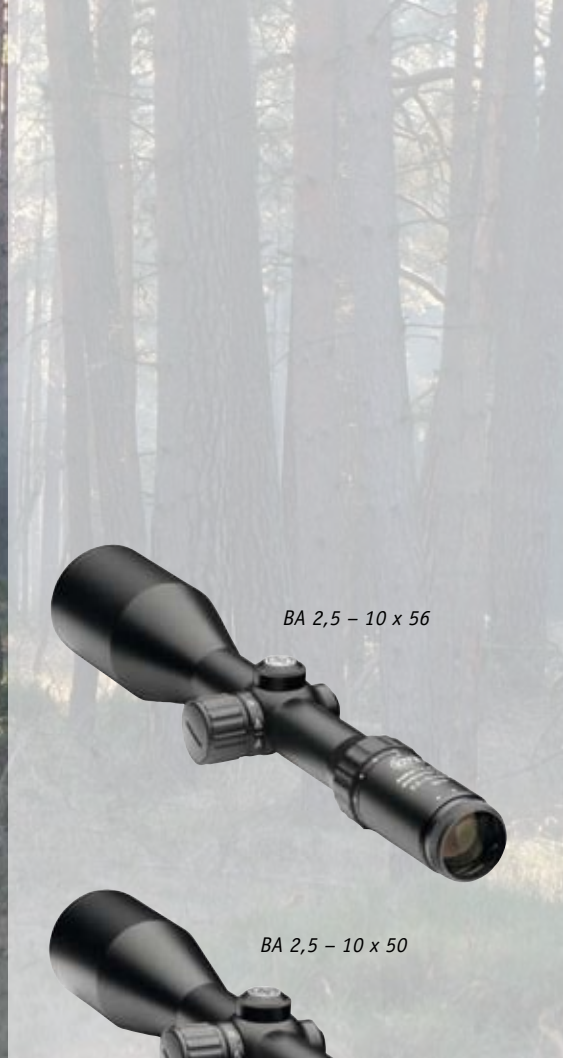

The illumination unit is sensitive and continuously operable.

### **Memory Function**

To deactivate illumination or activate the memory function, turn the knurled ring – the electronics are automatically deactivated and the last brightness value is stored. The stored value can be reactivated after 2 seconds.

### **Automatic Deactivation Function**

If brightness settings are not changed after approx. 6 seconds, the illumination unit automatically switches off.

BA 2,5 - 10 x 56

BA 2,5 - 10 x 50

BA 8 x 56

The following is a comparative overview of our rifle scopes' technical data:

Data	BA 8x56	BA 2,5 - 10x50	BA 2,5 - 10x56

Contact corr./click	8	8	8	mm/100 m
Parallax-free	100	100	100	100 m
Central tube	30	30	30	mm
Length	360	370	370	mm
Weight w/o rails	590	585	620	g
Weight w/ rails	620	615	650	g

**Kaps BA 2,5 – 10 x 56**

The top model from Kaps, with illuminated reticles for superior twilight performance right up to the last shot before nightfall.

**Kaps BA 2,5 – 10 x 50**

This all-purpose glass is ideal to the very last hint of twilight for stalking and hunting from the raised stand.

**Kaps BA 8 x 56**

This is a fixed-magnifying, compact rifle scope for the wild boar night stand. Exceptional twilight performance is the most prominent feature of this classic.
